TYRES

*The best alternative*

# WHY CHOOSE ALL-SEASON TYRES?

All-season tyres are summer tyres with the characteristics of winter tyres

In terms of technology, an all-season tyre is a compromise between a summer and winter tyre

The tyre functions properly under all conditions: dry and wet roads, winter conditions, above and below 7°C

All-season tyres with the 3PMSF symbol are characterised as winter tyres and are therefore also suitable for winter sports areas

An all-season tyre is a very good tyre for the mild climate!

Target group: private individuals who do not drive on winter tyres and business drivers who do not want to change their tyres twice a year

The demand for all-season tyres has increased enormously in recent years

Do you drive less than 10.000 km per year and is the combination summer + winter tyres too expensive? Than all-season tyres are a fine alternative

## NX-Speed 3

A reliable summer tyre for passenger cars. The NX-Speed 3 has a modern profile, offers excellent performance and has a long tread life.

### ADVANTAGES

- Summer tyre with long tread life and sporty driving characteristics
- Efficient water drainage reduces the risk of aquaplaning
- Robust tyre construction for reliability and comfort
- Tough, continuous shoulder blocks for steady handling
- Speed Index HR - VR

*\*This tyre is also available with an **extra load capacity**.*

Available in sizes:  
10" to 18"

## Super Speed A3 (UHP) ☀️ 🚗

**Sporty, comfortable and reliable.** The Novex Super Speed A3 for ultra high performance is the ideal mix

### ADVANTAGES

- Sporty tread design ensures optimum grip and excellent water drainage
- Robust tyre construction for reliability and comfort
- Tough, continuous shoulder blocks for stable handling
- Speed Index WR

*\*This tyre is also available with an extra load capacity.*

Available in sizes:  
15" to 19"

## Van Speed 3 ☀️ 🚐 🚚

**The Novex Van Speed 3 is a powerful tyre** for commercial vans, caravans and trailers. This tyre offers the ideal balance between safety and durability

### ADVANTAGES

- Provides excellent driving stability, good water drainage, smooth ride comfort and low noise level
- Premium tread compound increases tread life by increasing tear resistance
- High tensile strength steel-belted construction reinforces puncture resistance and extends the tyre durability

Available in sizes:  
15" and 16"

## All Season 3E (UHP)

**Grip in every season.** The All-season 3E is sporty, comfortable and reliable. This tyre for ultra high performance vehicles has the ideal qualities for a true all-rounder

### ADVANTAGES

- Advanced rubber compound for good performance in every season, in all weather conditions
- Excellent traction and driving characteristics in winter conditions
- The tyre profile ensures good water and snow drainage
- Exceptional performance on wet roads and stability while driving

*\*This tyre is also available with an **extra load capacity**.*

## All Season LT-3

**Reliable all-rounder for light commercial vehicles.** The All-season LT-3 is designed with a sturdy carcass, especially for vans and light commercial vehicles. This all-season tyre offers higher load capacity and good driving stability when cornering

### ADVANTAGES

- Extra load capacity
- Good water drainage - reduced aquaplaning
- Tough carcass for greater stability
- Suitable for all seasons
